MARRIAGE TIP OF THE MONTH

In February we celebrate Valentine's Day, a day created to celebrate love and a great month to think back to the days of dating we experienced with our spouses! Days when we flirted, complimented, spent endless hours talking, hated to be apart and planned and went on dates! Now compare it to your time together today – have you given up all or most of these actions? Marriages that continue to have relationships that reflect their dating days feel connected, vitalized and loved. Why not consider making February a month of renewal for your marriage? Purposely create a relationship with your spouse where you give them your time and attention by making them your number one priority and ignite that same spark of love you felt in those early days of dating.
